# The SA2025 ProSport from Pyrotect!

Pyrotect’s New SA2025 ProSport Helmets have been RE-Designed for Increased Safety, Comfort and Unmatched Quality at an Affordable Price.

The ProSport helmets come with a unique six pad interior system which allows for resizing the helmet for a perfect fit and are vacuum bagged and autoclave cured for superior helmet strength and durability while keeping the helmet as light as possible.

The clean aerodynamic design, along with our P1 venting system, provides superior air circulation throughout the helmet interior.

**REPLACEMENT CHEEK PADS and LINERS**

The real innovation of the Pyrotec SA2025 helmets is the convenient, easily removable, replaceable and resizable liners and cheek pads. This feature allows drivers options for comfort, fit, ease of use and the ability to adjust and maintain their helmets’ interior.

**To Order please reference the price list for all part numbers and sizes.**

**HELMET REPAIR KITS - SA05,10/15, 2025**

Pyrotec recommends that you use new washers and pivot screws every time you change or replace your shield.

**Pivot Kit:** Shield Pivot Kit for FF, SA & M helmets, included Cam washer, washer, and screws.

**SERIES HA320020** (SA05), **HA320120** (SA10/15)  
**HA320220** (SA20/25)

**HELMET REPLACEMENT PARTS**

Pyrotect recommends that you use new washers and pivot screws every time you change or replace your shield. Pivot Kit: Shield Pivot Kit for FF & SA helmets, included Cam washer, washer, and screws.

SERIES **HA320**

**BREATH DEFLECTOR**

Cloth, flexible, racing breath deflector is simple to install or remove, and is designed to direct breath down and away from the face shield to reduce fogging.

**6PT 3" HARNESS** FIA Camlock w/Light Weight Adjusters

FIA approved harness with 3" to 2" upper shoulder belts, 3" lap Belts on the pull up style and 2" lap belts on the pull-down style. Standard 6-point configuration with a high-quality FIA Approved Cam-Lock. All adjusters are constructed of Ultra-Light aircraft quality material. The upper adjusters on these belts have improved components built in to provide a tight lock when tightened down which means no need to tighten your belts while driving anymore! They also increase the ease of loosening and tightening belts without having to worry about the components "sticking" comes with FIA 8853-2016 approval.
